Dear Colleague,

**Re: British Hypertension Society Annual Scientific Meeting**

**Queens' College, Cambridge  
Monday 13<sup>th</sup> - Wednesday 15<sup>th</sup> September 2010**

Arrangements are proceeding well for the above meeting of the British Hypertension Society and we should like to take this opportunity of reconfirming your registration.

If you now find that you *cannot* attend for any reason, we would be grateful if you could inform us as soon as possible. In particular we should be grateful if you could let us know as soon as possible should your plans change for attending the Conference Dinner on Tuesday evening.

Please find enclosed final details on the conference arrangements, together with travel information, and a copy of the Scientific Programme.

**IMPORTANT - Accommodation Form to complete in advance and bring with you!**

**Please note that delegates who are NOT UK, Republic of Ireland or British Commonwealth citizens are required to provide their passport number and place of issue.**

If you have any queries, please do not hesitate to contact us and we look forward to seeing you in Cambridge.

With kind regards,

Yours sincerely,

**Mrs. Gerry McCarthy**

## **TRAVEL INFORMATION**

### **By Train:**

From London, trains to Cambridge leave from King's Cross and Liverpool Street stations. There are normally one or two trains each hour from both stations. The fast trains take slightly over an hour for the journey.

Some direct services to Cambridge operate from Birmingham, Leicester, Liverpool, Manchester, Nottingham, Peterborough and Sheffield. It is possible to change at Peterborough for services from Doncaster, Leeds, York, Newcastle, Edinburgh and Glasgow, though the trains can be slow and it may be quicker, though more expensive, to travel via London.

Queens' College is a long walk from the railway station, and it is best to take a taxi.

### **By Air:**

National Express Coaches run regular services between Cambridge and the following airports: Stansted (50 minutes), Heathrow (2 - 2½ hours) and Gatwick (3 hours)
